I know there is a proposal that we will be able to use the community room in the new building going up but that would be like going into other apartment buildings and using their community room. Too small a room and not usable for multi purpose senior activities. Also people living in the building will have their own activities leaving very little time for seniors. 						<p>brought many seniors together, providing many diverse opportunities for socializing and personal development; new friend, reacquainting with old, knowledge building, new adventure and exercise. For relaxing and meeting. For lunch in a quiet space. It is Our Place. It was built for seniors, anticipating the future where, as our community ages, there would be a special place for many more members. It was built to anticipate growth in numbers and growth in activity. It is thriving. Seniors have a place, just as the youth and younger adults have many place-S to do the same. Baseball fields, soccer fields, badminton, swimming, outdoor exercises, courses etc. You only have to look at the Recreation Guide to see all the opportunities youth have in our town. To take it away from us without proper and timely consultation and by sliding youth slowly into the space that you were ultimately planning to take over is underhanded. You are showing utter lack of regard and respect for seniors - most of whom have duly paid their taxes and supported through volunteering and donations this community for many, many years. Remember you may well be unfortunate enough to be facing this same lack of respect, ill treatment and loss of home yourselves in the future. We live in a growing town, where many people are</p>

						adding to the tax base. Use some of these monies to expand Brennen Park to accommodate increased numbers and evolving activities. Keep the youth activities in one area so Brennen Park remains a center hub. Make it a one stop access for all municipal activities where youth can meet in one place. This whole effort to evict the seniors from their place is being slyly and craftily done. It is shameful.

						<p>following the opening 14 years ago, the aging community have enjoyed it, created many activities, including programs for the mentally capable and physically challenged. Some met with no help from the DOS. The lawn bowling green comes to mind - DOS claimed no funds to maintain it and suggested perhaps seniors can maintain it themselves - now, it sits, surrounded by broken fencing and is a hub for teens to late-night gather). We moved into Eaglewind due to proximity to the "seniors centre", as did many others. 55 Activity Centre = a high-traffic area, with scarce unmanaged parking, due to community residents utilize the spaces, all future activities planned should be managed, and funded, by the DOS (yet they continue to maintain it's not their property to do so). This should be part of their planning initiative, for community safety, and YES I have expressed concern in emails and with council directly. Westwinds complex = sadly, some seniors will be displaced, unable to move from the Manor into the new Westwinds building due to unaffordability, will find themselves scrambling to find a new home soon. As happy as I am for some who can afford to move into the new Westwinds complex (I understand the waitlist is big), my heart breaks for those left out in the cold who should have been</p>

It appears to have discounted seniors'/elders' valid concerns, and not attempted to come up with a mutually beneficial agreement between the varius parties. It seems to have listened primarily to staff (whose salaries are paid for by the community, including the seniors/elders over umpteen years!), and discounted or minimized the concerns of the Seniors. 						includes bringing in and notifying more seniors/elders in the community who may not know about what is going on or have not had the "pro's and cons" set out clearly. Moreover Council should re-constitute the Seniors Committee which used to meet regularly with a Council member and a staff member to analyze issues that affect Elders in Squamish. And it should also address the "age'ism" which exists in our society but which is usually or often ignored and negated (this present situation or debacle is an example of that). Christine Endicott	Squamish	christine.endicott@hotmail.com	Yes	38325 Summits View	I am 19 years or older	I believe the 55 Centre should stay a place for seniors, who deserve a quality facility in this town. It's perfect where it is as it's close to several seniors residences including a new one being built. Youth can be better served at Brennan Park and near the high school.	2020-10-05

195. Carol Forsyth	Squamish	carolaforsyth@gmail.com	Yes	15060 Squamish Valley Road	Yes	We have a fairly substantial senior population in Squamish. The center is, for many, the only social outlet available. It keeps many of us engaged and active. We need a strategy that will cover all aspects of senior activity.	2020-10-10
196. Michael Sherlock	Squamish	mikesart@ymail.com	Yes	C-1002 Balsam Place	Yes	I am appalled by the total disregard for Seniors' input as to how their lives could be improved. Mayor and council should remember, they are there to SERVE not to dictate. What are they afraid of should Senior's have their say?	2020-10-12
